

Presentation

Internationalization is fundamental at FPCEE Blanquerna-URL. We strive to train our students to be open to the world and we encourage student exchange through different mobility programs such as Erasmus or Bilateral Agreements by welcoming students from partner institutions. Our aim is to foster intercultural and plurilingual competences through courses where incoming students mingle with local students and tailored courses only for incoming students. In this way, the international reality becomes part of the dynamics of all the studies that Blanquerna offers.
